

SUBJECT: CORONAVIRUS – PREVENTION MEASURES – COMMUNICATION TO CUSTOMERS

Pontenure, March 11, 2020

Dear customers,

following the indications of the National and Regional competent Authorities, Tal Group has taken the planned measures related to the current sanitary emergency, in order to ensure the health and safety of its employees, customers and suppliers.

In particular, we have implemented and adopted all applicable measures given by the Ministry of Health and by the World Health Organization, intended to fight the spread of the virus.

Moreover, as a precautionary measure, we have taken the following actions:

- restricted and monitored the access of people outside the company
- stopped business trips of our employees
- prohibited meetings, training activities and any other activities which could involve the physical aggregation of several people in the same place, in our company
- reiterated the prohibition to go to work when flu symptoms occur

Under the present conditions, our Company is working at 100% of its capacity and we are not suffering the negative effects caused by COVID-19 epidemic.

Our suppliers are delivering normally, therefore our stock enables us to meet our existing and future commitments.

We are working to try and minimize the possible inconveniences, in order to allow you to continue working normally. We appreciate your understanding in this difficult time.

We'll continue to monitor this situation as a priority, but if you need further information, we ask you to get in touch with your reference team.
